

POINT 65°N
Kayaks SWEDEN

Modular tandem kayaks fit into most compact cars

Introducing the Rum Runner - a modular SUP

Why not a 100-person kayak!

More adventure - great for boaters

Tandem paddling - twice the fun!

Each section comes packed in a manageable box*

Efficient freight and warehousing solution

Attracts attention on the shop floor...

... and the shop window

*Only Apollo is standard packed in boxes.
For other models box packaging is optional.

Apollo Solo

Apollo Tandem

Point 65 Sweden presents the modular Apollo Solo, Tandem, Triple – and more...

Introducing the modular take-apart Apollo.

A fun, versatile, high-performance sit-on-top kayak which, due to its modularity, is exceptionally easy to carry, store and haul.

The revolutionary Solo-Tandem-or-more combination is the solution you were waiting for (patent pending).

Go solo, go tandem, go triple — keep going

Snap in the mid-section and your Solo transforms into a high-performance tandem. Add another mid-section and it's a triple. Keep adding mid-sections and create the perfect team building tool for as many paddlers as you want.

Performance kayaking

The Apollo, made in the USA in durable HTP (high-performance thermoplastic), is easy to handle in and out of the water. With Point 65's innovative Snap-Tap system, the Apollo snaps apart and reassembles in seconds for a kayak that is comfortable, stable, strong and, due to its modularity, super easy to carry. The Apollo is a rigid, high-performance kayak that you can carry with a smile on your face, put into the back of your car and store under your bed.

Comfort and ease

The Apollo features a comfortable seat, cup holders, contoured foot braces and space for your dry bag for safe storage on your next adventure. The ingenious, foldable backrest offers great back support. With a second mid-section between two paddlers, you create additional storage space.

Easy to own

The Apollo Tandem easily fits into the back of a Toyota Prius. So, no roof rack, no lifting and you keep the low gas mileage to boot. It fits into a small elevator, under your bed or in your closet! Never before has a kayak been so much fun and so easy to own.

UPS at standard rates!

Each section of the Apollo comes packaged in a durable box within 130 united inches (55" x 25" x 10" at 22 lbs.) The Apollo is shippable all over the USA with UPS at standard rates. No over-size penalty!

Ship on pallets

The Apollo is shipped in 140 x 69 x 25cm boxes. 9 boxes will fit on a 145 x 85cm pallet. This translates into 3 Tandems or 4.5 Solos per pallet. 33 pallets fit inside a Euro trailer (11 pallets deep and 3 wide) which translates to 297 boxed sections, i.e. 99 Tandems or 149 Solos.

Never has a kayak been easier to sell!

Tequila! GTX

Equipped with

Tequila! GTX Solo

Tequila! GTX Tandem

The new Tequila! GTX!

The Tequila! GTX offers a new level of innovation for recreational kayaks. Created by award-winning design engineer Magnus de Brito, Point 65 launches the Tequila! A fun, versatile and high-performance kayak that, due to its modularity, is exceptionally easy to carry, store, and haul. The revolutionary solo or tandem combination is the solution you were waiting for.

Performance kayaking

With its new tracking keel the Tequila! GTX paddles straight as an arrow. With Point 65's innovative patented Snap-Tap solution, the single-seater snaps apart and re-assembles in seconds for a kayak that is safe, stable, and strong making it by far the most lightweight kayak on the market. The Tequila! is a rigid high-performance kayak that you can carry with a smile on your face, put inside most cars, and store under your bed.

Solo or tandem - all in one

No need to buy two kayaks. Snap in the mid-section and your single seater is transformed into a high-performance tandem, so you can bring a friend. Never before has a kayak been so much fun and so easy to own. In fact, the only thing you'll need to worry about is deciding whom to bring.

Ultimate seat comfort

The Tequila! GTX is equipped with a super-comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position. The seat covers are made of highly durable

reddot design award
honourable mention 2010

and comfortable, honey-comb patterned material in combination with mesh-like fabric which is laminated and molded over EVA foam.

Get in and go

Carrying and hauling, going solo or tandem, the Tequila! has the innovative features to keep everyone smiling. So easy to set up and go, you'll be having a blast right off the beach.

Martini GTX Solo

Martini GTX Tandem

The new Martini GTX!

The Martini GTX is a decked, take-apart, touring kayak with a roomy and comfortable cockpit to explore with and then take back home in the back of your car. Like the sit-on-top version, the Martini GTX features the innovative patented Snap-Tap solution. Created by award-winning design engineer Magnus de Brito, the Martini is a fun, versatile and high-performance recreational kayak.

Performance kayaking

The Martini GTX is a nimble, fun, comfortable and stable kayak that snaps apart and re-assembles in seconds making it by far the most easy to carry.

The Martini GTX is a rigid high-performance day-touring kayak that you can lift with a smile on your face, haul in the back of most cars, fit in the elevator and stow under your bed.

Solo or tandem - all in one

No need to buy two kayaks. Snap in the mid-section and your solo is transformed into a high-performance tandem, so you can bring a friend. Never before has a kayak been so much fun and so easy to own.

Ultimate seat comfort

The Martini GTX is equipped with an extremely comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position. The seat covers are made of highly durable and comfortable, honey-comb patterned material in combination with mesh-like

fabric which is laminated and molded over EVA foam. It is equipped with an ergonomically designed seat, backrest and foot braces, which provide for good leg support and a comfortable paddling position. Add the fitted spray cover and you can enjoy a dry ride even in rough conditions.

Tequila! GTX Angler

Equipped with

Tequila! GTX Angler Tandem

The most versatile sit-on-top fishing kayak!

The Tequila! Angler is a modular fishing kayak that you can carry with a smile on your face, transport in the back of most cars and store under your bed. With the patented Snap-Tap system the Tequila! Angler snaps apart into manageable sections and re-assembles in seconds. The Tequila! Angler is a safe, stable, and strong fishing kayak. This 10-foot boat sports a 300-pound weight capacity, yet due to its tracking keel, it still paddles straight as an arrow.

Solo/tandem fishing kayak all in one!

Snap in the mid-section and your Tequila! Angler Solo is transformed into a 14 foot high-performance Tandem. Add a second mid-section and you have lots of carrying capacity and room for whatever fishing gear you want to bring. Or for a third paddler.

Equipped for fishing

The Tequila! Angler is packed with "must have" features that kayak anglers demand. From lakes to rivers to the open ocean, this boat has no boundaries. The solo and the mid-section alike come equipped with rod holders. Two of which are integrated, flush-mounted behind the seat and one is on a deck mount in front of the paddler. This deck mounted rod holder can be removed and replaced with any compatible hardware of your liking.

In addition, the Tequila! Solo as well as the mid-section are equipped with two additional deck mounts to enable the owner to add more rod holders or other equipment.

Ultimate seat comfort

The Tequila! Angler is also be equipped with an extremely comfortable AIR seat.

The AIR seat, with an pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable and comfortable, honey-comb patterned material in combination with mesh-like fabric which is laminated and molded over EVA foam.

If you are looking for an extremely versatile fishing kayak that is easy to carry, store and transport – this is it!

Martini^{GTX} Angler

Martini GTX Angler Tandem

Martini GTX Angler Solo

The most versatile, decked, fishing kayak out there!

The Martini GTX Angler is a modular sit-inside fishing kayak that you can carry with a smile on your face, transport in the back of most cars and store under your bed. With the patented Snap-Tap system, the Martini GTX Angler snaps apart into manageable sections and re-assembles in seconds. The Martini GTX Angler is a safe, stable, and strong fishing kayak. This 10-foot boat sports a 300-pound weight capacity.

Solo/tandem fishing kayak all in one!

Snap in the mid-section and your Martini GTX Angler Solo is transformed into a 14 foot high-performance tandem. Add a second mid-section and you have lots of carrying capacity and room for whatever fishing gear you want to bring, or for a third paddler.

Equipped for fishing

The Martini GTX Angler is packed with "must have" features that kayak anglers demand. From lakes, to rivers, to the open ocean, this boat has no boundaries. The solo and the mid-section alike come equipped with rod holders. Two of these are integrated, flush-mounted behind the seat and one is on a deck mount in front of the paddler. This deck mounted rod holder can be removed and replaced with any compatible hard-ware of your liking. In addition, the Martini GTX Angler Solo is equipped with an additional deck mounts to enable the owner to add more rod holders or other equipment. Two large hatches offer dry storage for plenty of gear. The Martini Angler features a fish-o-meter on the side of the boat so you can measure your catch.

Ultimate seat comfort

By using a spray deck around the cockpit the paddler can experience a comfortable dry ride.

The Martini GTX Angler is also equipped with a super comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable, comfortable, honey-comb patterned material in

combination with mesh-like fabric which is laminated and molded over EVA foam. If you are looking for an extremely versatile fishing kayak that is easy to carry, store and transport – this is it!

Equipped with

Mercury GTX Solo - Tandem hybrid, as easy as one, two, three!

Following the success of Point 65's modular recreational kayaks comes the expedition version. The Point 65 Mercury GTX is a high-performance, stable, decked, modular touring kayak with a large cockpit in which to explore and then take back home inside most cars. Like the recreational versions, the Mercury GTX features the inno-vative Snap-Tap solution (patent pending).

The 415cm / 13'7" Mercury GTX Solo breaks apart into three manageable sections, each weighing less than 11kg / 24,3 lbs. The 100cm / 39" nose section fit's snugly into the mid-section's cockpit allowing easy storage in the back of your car. With an additional mid-section your Mercury Solo is transformed into a 545cm / 17'10" high-performance, expedition tandem. Created by Magnus de Brito, award-winning design engineer, the Mercury is a fun, versatile, high-performance touring kayak.

Performance kayaking

The Mercury GTX is a fast and fun, comfortably stable and straight tracking kayak that snaps apart and reassembles in only a few seconds making it by far the most easy to carry touring kayak. The rotomolded polyethylene construction provides a combination of strength and impact resistance that most other materials can't match.

It has lots of dry storage space with powder dry hatches front and aft. The Mercury GTX is a rigid, high-performance, expedition, solo/tandem touring kayak that you can lift

with a smile on your face, haul in most cars, fit in an elevator and stow under your bed.

Ultimate seat comfort

The Mercury GTX is equipped with an extremely comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable and comfortable, honey-comb patterned material in combination with mesh-like fabric which is laminated and molded over EVA foam.

Equipped with

Rum Runner

Rum Runner 12.5

Rum Runner 11.5

Rum Runner Modular SUP - as easy as one, two, three!

Following the success of Point 65's modular kayaks comes the Stand Up Paddle board (SUP) version in two sizes: Rum Runner 11.5 and Rum Runner 12.5. The Point 65 Rum Runner is an innovative, high-performance, take-apart, touring SUP with a displacement hull, making it a fast, stable, straight-tracking board on which to explore, exercise, and easily take home in the back of your car. Its looks are defined by distinct lines making it a fast ride and a head turner – both on and off the water. Like the modular kayaks, the Rum Runner features the innovative, patented Snap-Tap system for ultimate usability – both on and off the water. The 350cm / 11.5' Rum Runner has a carrying capacity of 265lbs. It easily separates into three manageable sections, each weighing as little as 7kg / 15lbs allowing for easy transport in almost any car.

Two Sizes

Using the longer mid-section, your Rum Runner 11.5 is transformed into a 381cm / 12.5' fast and smooth riding SUP with a carrying capacity of 300lbs. Created by Magnus De Brito, award-winning design engineer, the Rum Runner is a fun, versatile, high-performance, touring SUP.

Performance SUP

The Rum Runner is fast and fun, yet comfortably stable and straight tracking. It is a SUP that snaps apart and reassembles in seconds, making it by far the most easy to carry, rigid SUP. The rotomolded polyethylene construction provides a combination of

strength and impact resistance that most other materials can't match.

Point 65's Rum Runner also features lots of dry storage space with a watertight hatch in the front. The Rum Runner 11.5' or 12.5' is a rigid, high-performance, touring SUP that you can lift with a smile

on your face, haul in the back of most cars, fit in an elevator and stow under your bed.

Features Rum Runner

- Strong & durable 1-layer PE (polyethylene)
- Great tracking & performance
- Watertight compartment front with oval hatch
- Take-apart for easy transportation and storage
- Snap-Tap take-apart system
- 11.5 or 12.5 combination
- Structured EVA padding on deck for comfort and grip
- Retractable fin for shallower draft and easier storage
- D-rings installed for optional AIR seat pad
- 2 cupholders in front
- Carrying handle on all sections
- Scuppers to drain deck area

Highly versatile

The deck of the Rum Runner is partly covered with a structured EVA foam padding for paddling comfort and grip. The nose section has two built-in cup holders and sports a large oval hatch for easy loading into the powder dry storage. The deck also features D-rings for installation of the optional AIR seat pad. Whether camping, cruising, fishing, hunting or hauling, anything is possible on the Rum Runner.

XO11

XO11 GTE Rudder & Skeg

Happy go lucky

Why do our customers love the XO-series? Partly for their looks. We have yet to find a better-looking 335cm / 11' kayak. They also love the XO-series' performance – the XO11 is probably the best-performing boat in its class on the market today.

The XO11 is available in 5 different versions. The XO11 GT (Grand Tourer) equipped with skeg, footbraces, and storage compartment, both front and aft for storage and added safety. An optional, liftable rudder is available with easy-to-adjust rudder pedals. The cockpit includes an ultra comfortable padded seat with adjustable backrest, thigh braces and soft, ergonomically designed, carry grip pads on the cockpit rim, for easy carrying by hand or on your shoulder. The GTE version also includes the AIR seat which allows for maximum comfort and fit by inflating built-in air bags with easy to use hand pumps.

A great recreational kayak for day excursions, fishing, photographing, and just having fun, there is a perfect XO11 for everyone. The cockpit, designed for easy entry/exit, is large enough to suit all types of paddlers. The ergonomically designed seat provides leg support and a comfortable paddling position. Great looks, superb handling – and of course, the XO11 is light enough to load and carry on your own, so you can take it wherever you go.

Features XO11

- Great tracking & performance
- Great fun for expert and beginner alike

XO11 GT Skeg (Grand Tourer) specific features:

- Kink-free Symmetry skeg system with precision adjustment from cockpit
- Foot rests with precision adjustment
- Comfort seat with vertically adjustable backrest with sculptured padding on seat, back and hips for increased grip
- Round 24 cm hatch in front for storage
- Oval 44x26 cm hatch in aft for easy storage
- Molded-in locking pin on deck for security
- Cockpit designed for easy entry/exit
- Soft touch cockpit-rim pads ergonomically molded for comfortable carrying
- Padded thigh braces for improved control
- Deck bungees for securing deck bags or other items on front and aft deck
- Deck safety lines with reflective threads for higher visibility
- Carrying toggles front and aft
- Ultra durable 1-layer PE for durability and strength

XO11 GT Rudder & Skeg specific features:

- Rudder pedals with precision adjustment and self adjusting rudder lines
- Liftable rudder for improved control and tracking

XO11 GTE Skeg (Grand Tourer Expedition) specific features:

- Same as GT Skeg, plus:
- AIR-seat, the ergonomically designed seat with air-filled leg lifter, hip pads and backrest allows for the ultra comfortable and adjustable seating position

XO11 GTE Rudder & Skeg specific features:

- Same as GTE Skeg, plus:
- Rudder pedals with precision adjustment and self adjusting rudder lines
- Liftable rudder for improved control and tracking

XO11 GTE 3L Rudder & Skeg specific features:

- Same as GTE Rudder & Skeg, plus:
- 3-Layer rotomolded (PE) with an ultra durable PE for a stiffer and lighter hull

Five-O-Five GTE Rudder

Touring made affordable

The Five-O-Five is for real touring at a real discount. Minus a day hatch and a skeg and with a single-layer structure, it is priced well below other high-performance touring kayaks at 505cm/16'7". Our dealers appreciate the opportunity to offer touring performance at a budget cost.

The Five-O-Five is designed for beginning and medium-level paddlers seeking affordable quality touring, and it is the first choice for outfitters and kayak schools. The cockpit is outfitted with padded thigh braces and the ultra comfortable AIR seat with adjustable backrest which allows for maximum comfort and fit by inflating built-in air bags in the back, hips and under your thighs with easy-to-use hand pumps. The standard-equipped rudder allows for control and comfort while paddling. Finally the Five-O-Five is available in lighter and stiffer 3-layer PE with a foam core for higher performance and easier handling both in and out of the water.

A great recreational kayak for day excursions, fishing, photographing, and just having fun, there is a perfect Five-O-Five for everyone. The cockpit, designed for easy entry/exit, is large enough to suit all types of paddlers.

"The Five-O-Five is an adaptable, easy to use sea kayak that will allow the improving paddler to progress quickly"

- Ocean Paddler Magazine

Features Five-O-Five

- Affordable
- Great tracking & performance
- Great for rental & teaching

Five-O-Five GT Rudder (Grand Tourer) specifications:

- Comfort seat with vertically adjustable backrest with sculptured padding on seat, back and hips for increased grip
- Round 24 cm hatch in front for storage
- Oval 44x26 cm hatch in aft for easy storage
- Cockpit designed for easy entry/exit
- Padded thigh braces for improved control
- Deck bungees for securing deck bags or other items on front and aft deck
- Deck safety lines with reflective threads for higher visibility
- Carrying toggles front and aft
- Ultra durable 1-layer PE for durability and strength

Five-O-Five GTE Rudder specific features:

- Same as GT Rudder, plus:
- AIR-seat, the ergonomically designed seat with air-filled leg lifter, hip pads and backrest allows for the ultra comfortable and adjustable seating position

Five-O-Five 3-Layer Rudder specific features:

- Same as GTE Rudder, plus:
- 3-Layer rotomolded (PE) with an ultra durable PE for a stiffer and lighter hull

Sea Cruiser

SeaCruiser Rudder & Skeg

Discover SeaCruiser – tell better stories.

Point 65's best-selling touring boat is a multi-talented kayak that is bold in appearance as well as performance. Entry-level paddlers feel immediately comfortable with its stability, and advanced paddlers appreciate the superior performance and cruising capabilities.

The SeaCruiser can hold enough gear for extensive expeditions. It comes with a fully retractable skeg, an exclusive extra day hatch, innovative foot braces, and also includes the AIR seat which allows for maximum comfort and fit by inflating built in air bags with easy-to-use hand pumps. It tracks straight as an arrow with great glide and speed, keeping you dry even in rough seas.

A slightly v-shaped hull makes it easy to maneuver and fun to play with, and the tough 3-layer polyethylene construction makes it both light and extremely strong and impact-resistant. Whether the waters are calm or rough, the SeaCruiser delivers a thrilling performance.

“In rougher conditions, more experienced paddlers will enjoy paddling the Sea Cruiser and find it lively and fun”

- Ocean Paddler Magazine

Features SeaCruiser

- Strong, stiff and durable 3-Layer PE (polyethylene)
- A performance Sea Kayak for beginners and experienced paddlers

SeaCruiser GTE Skeg specific features:

- Kink-free Symmetry skeg system with precision adjustment from cockpit
- Foot rests with precision adjustment
- Comfort seat with vertically adjustable backrest with sculptured padding on seat, back and hips for increased grip
- Oval 44x26 cm hatch in front for easy storage
- Two 15cm Day hatches behind cockpit
- Oval 44x26 cm hatch in aft for easy storage
- Cockpit designed for easy entry/exit
- Padded thigh braces for improved control
- Deck bungees for securing deck bags or other items on front and aft deck
- Deck safety lines with reflective threads for higher visibility
- Carrying toggles front and aft
- 3-Layer rotomolded (PE) with an ultra durable PE for a stiffer and lighter hull

Freya Hoffmeister, Point 65 test paddler

When the going gets rough...

Freya Hoffmeister is one of only two people to have circumnavigated Australia in a kayak. She is the only woman and unassisted paddler to have achieved this feat. Following this 2009 adventure she is currently circumnavigating South America – the first ever to attempt this.

When Point 65 began designing the FREYA 18, safety, comfort, and speed were key design features. The result is stunning. Even the most experienced paddler can become frustrated with the constant bracing in the rough. The Point 65 FREYA 18 changes everything. This lightning fast expedition

It's the combination of speed and stability that makes the FREYA 18 truly unique.

The FREYA 18 compiles all Freya Hoffmeister's experiences from years of extreme long-distance expedition paddling, and the result is a kayak with unbelievable speed vis-à-vis stability and comfort. It is designed in cooperation with award-winning design engineer and avid paddler Magnus de Brito, using highly advanced hydrodynamic design technology combined with experience and extensive testing, Freya and Magnus have created a unique expedition kayak that is faster than most while comfortably stable even in the roughest conditions.

The FREYA 18 is packed with several groundbreaking innovations and will be unveiled at the Outdoor Retailer trade show in Salt Lake City on August 1st, 2012. The FREYA 18 will be available in limited edition and on special pre-season order.

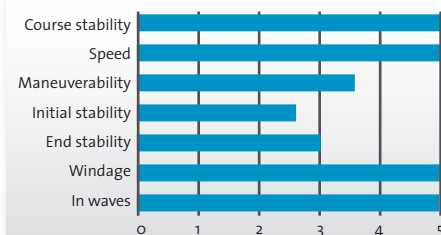

Produced in advanced light weight composite technology, the FREYA 18 is available as two options: Fiberglass (25kg / 55lbs) and Pro Lite in carbon/kevlar (21kg / 46lbs).

FREYA HOFFMEISTER
"THE SECOND CONTINENT"
12 countries - 24.000 km - 24 months
THINK BIGGER!

kayak is designed for maximum speed when conditions get real. The FREYA 18 is designed to outrun most anything while keeping its rider safe in the cockpit through the most fearful chop, surf, wake or you name it. After hours of paddling, being safe is essential.

Features Freya

- Lightning fast and stable relative to its width and shape
- Wide roomy cockpit
- Performance pedals
- Adjustable seat
- Integrated rudder, with built in skeg
- Vacuum-bagged composite

XP18

XP 18 Rudder&Skeg

Touring made faster

A lean, mean, touring machine, the XP 18 with exceptional glide, consumes mile after mile with little effort.

The speed, maneuverability and stability makes the XP 18 truly unique.

The XP 18 is a very fast touring kayak with the aggressive appearance of an adventure racing craft – and the performance to match. Using highly advanced hydrodynamic design technology, the XP 18 has a markedly improved stability, maneuverability and speed.

Great primary and secondary stability offers beginners and expedition paddlers alike a fast ride, even in the most challenging conditions. Your heaviest gear will barely slow it down – this is an ideal expedition kayak. The XP 18's maneuverability is unparalleled among touring kayaks with super responsive steering through its liftable rudder (optional). The fitted retractable skeg will increase tracking when winds and currents are working against you. The redesigned cockpit is longer and wider for powerful strokes through optimal leg-room as well as increased comfort during entry and exit. Store heavy gear in the two large oval hatches, lighter bags for your small essentials in the large 20cm day hatch.

Also unique to the XP 18 are the recessed safety lines in the bow and stern, accentuating its ultra sleek look. It comes with a retractable skeg, footrests, and a compass recess on the foredeck (the Silva 70P compass is optional).

Whisky 16

Whisky 16 Skeg

Rough waters – fun paddling

When launching the Whisky 16 we knew we had a slam dunk. It is designed by Nigel Foster, after all, to be everything he looks for in a kayak. But the demand still takes us by surprise. All our customers have to do is to try it – and they are hooked. Even an absolute novice feels like Nigel Foster in the cockpit of a Whisky 16. On gentle waters the boat is comfortable, stable, and easily maneuvered – an ideal boat to develop skills.

For the experienced paddler it is the ultimate playboat. With its fuller bow and stern shape to reduce plunging, the Whisky 16 is designed to make the most of rough water, surf, and currents. It is perfect for day trips but spacious enough for a few days of self-contained expedition paddling. It is available in vacuum-bagged fiberglass or fibreglass and carbon. The Whisky 16 has two large oval aft and bow hatches, a large round day hatch behind the cockpit for access to items while on the water, and the Whisky hatch, a smaller round hatch in front of the cockpit that opens to an under-deck compartment.

“A surfing machine”

“A kayaker’s kayak”

“A fantastic touring machine”

“Rocks, waves, current; bring it on!”

“...a fantastic kayak for skilled paddlers looking for fun.”

“Its speed and agility will make you the envy of other paddlers”

“It accelerates like lightning, making it a breeze to catch waves.”

- Sea Kayaker Magazine, Oct 2013

Features Whisky 16

- Very stable open water kayak
- Extremely maneuverable
- Suitable for both beginners and experts
- Extra hatch in front of cockpit
- Design by Nigel Foster

Whisky 16 Skeg specific features:

- Vacuum-bagged composite
- Footrests
- AIR backrest for adjustable position and comfort

Whisky 16 Rudder & Skeg specific features:

The Point 65 AIR seat - you'll never want to leave the cockpit...

The AIR seat is now available for all Point65 Kayak models! The ergonomically designed Point 65 AIR seat with pneumatically adjustable leg-lifter, hip pads and backrest was first introduced for the XO GTE models and has gradually been extended to all of our models for 2014!

The AIR seat technology gives you an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable, comfortable, dark gray, honey-comb patterned 4-way stretch Ripstop and a mesh-like fabric

which is laminated and molded over EVA foam which makes it almost unaffected by water and allows for many hours of comfortable paddling no matter what the weather conditions are.

The revolutionary Point 65 AIR Seat is not only remarkably comfortable. It is also a high-performance seat that does not inhibit the paddler's movement, helping instead to find the perfect paddling position.

AIR seat including 4 Airbags in GTE versions of XO11, XO13, Five-O-Five & Seacruiser

Foldable AIR seat in Tequila! GTX & Tequila! GTX Angler

AIR backrest in Whisky 16, XP18, Freya18, Martini GTX, Martini GTX Angler & Mercury GTX

Nigel Foster EXPLORER II

Nigel Foster Explorer II

This PFD is designed by Nigel Foster for comfort, versatility and performance even in the most difficult waters. All materials have been carefully chosen for the highest quality. The rugged Cordura shell provides extreme durability and strength.

Two bellowed pockets are equipped with strong velcro and sturdy buckles, while the third pocket is zippered along the side for easy access to smaller items. D-rings are fitted inside all pockets to secure cameras and cell-phones. The left-hand pocket is large enough to fit a towing line. Loops and pockets are designed to fit a towing belt. Reflective piping is fitted on the front and back to enhance visibility on the water. The back is fitted with loops for securing a waterbag and the lower belt and shoulders are lined with neoprene for ultimate comfort.

Available colors: Red, Mango, Denim, Chocolate
Available Sizes: S, M/L, XL

Nigel Foster

Nigel Foster

This super light paddle, designed by the legendary Nigel Foster, is *the* paddle for ultra-precise maneuvering. The smooth face and back design of the foam-filled blade are instrumental for precision and control.

Weight: 760g 1pc / 800g 2pc

Material:

2-piece Shaft, adjustable angle, fiberglass, foam-core blade, carbon shaft

Available lengths: 205cm, 210cm, 215cm

Nigel Foster AIR

The Nigel Foster AIR is even lighter and built to perfection. Made specifically for paddlers with the highest demands on quality and weight. You can't find a better built product.

Weight: 600g 1pc / 740g 2pc

Material:

2-piece shaft, adjustable angle, carbon foam-core blade, carbon shaft

Available lengths: 205cm, 210cm, 215cm

GRAND TOURER

Point 65 Grand Tourer

The Grand Tourer is produced by vacuum-molded, fiberglass and pigmented injected epoxy. The medium-sized elongated touring blade offers a perfect combination for paddlers who like a soft but firm grip in the water, with lower windage.

Weight: 990g

Material:

2-piece Shaft, adjustable angle, fiberglass foam-core blade, fiberglass shaft

Available lengths: 220cm, 230cm

Point 65 Grand Tourer Carbon

The Grand Tourer Carbon is produced in a high pressure vacuum-molding machine injectioned with epoxy. The result is a strong, and stiff blade with a lightweight foam core.

Weight: 850g

Material:

2-piece shaft, adjustable angle, carbon foam-core blade, carbon shaft

Available lengths: 220cm, 230cm

SUPER TOURER

Point 65 Super Tourer

The Super Tourer is produced by vacuum-molded, fiberglass and pigmented injected epoxy. The Super Tourer is perfect for paddlers who are looking for a slimmer and smaller blade for a comfortable Touring experience.

Weight: 990g

Material:

2-piece Shaft, adjustable angle, fiberglass foam core blade, fiberglass shaft

Available lengths: 220cm, 230cm

Point 65 Super Tourer Carbon

The Super Tourer Carbon is produced in a high pressure vacuum-molding machine injectioned with epoxy. The result is a strong, and stiff blade with a lightweight foam core.

Weight: 850g

Material:

2-piece Shaft, adjustable angle, Carbon foam core blade, carbon shaft

Available lengths: 220cm, 230cm

EASY TOURER

Point 65 Easy Tourer

While the aluminum shaft and glass reinforced nylon blades are very durable, the paddle is surprisingly lightweight.

Weight: 1.130g

Material: 2-piece aluminum shaft, adjustable angle, glass reinforced nylon blades

Available lengths: 220cm, 230cm

Point 65 Easy Tourer GS

With its fiberglass shaft and carbon reinforced nylon blades, it is an upgrade which gives an even lighter, stronger and stiffer paddle at incredible value.

Weight: 992g

Material: 2-piece fiberglass shaft, carbon reinforced nylon blades

Available lengths: 220cm, 230cm

ADVENTURE TOURER

Point 65 Adventure Tourer

This model has a shorter, medium-sized paddle shape for higher, more powerful paddle strokes. Surprisingly light.

Weight: 1.130g

Material:

2-piece aluminum shaft, adjustable angle, glass reinforced nylon blades

Available lengths: 220cm, 230cm

Point 65 Adventure Tourer GS

With its fiberglass shaft and carbon reinforced nylon blades, it is an upgrade which gives an even lighter, stronger and stiffer paddle at incredible value.

Weight: 992g

Material:

2-piece fiberglass shaft, carbon reinforced nylon blades

Available lengths: 220cm, 230cm

SUP TOURER

Point 65 SUP Tourer

This model has a medium-sized paddle with a low cadence shape gives you immediate power and good stability. It has a great blade shape for straight ahead tracking with a palm style grip for a good fit and controlled strokes. The quick adjustable length fits any sized paddles and board. It is collapsible into 3 pieces where the longest part will be less than 130cm which fits perfectly with the Rum Runner SUP.

Weight: 1.050g

Material:

3-piece aluminum shaft, adjustable length, glass reinforced nylon blade

Available lengths:

Adjustable telescopic 170 to 215 cm

Point 65 SUP Tourer GS

With its fiberglass shaft and carbon reinforced nylon blades, it is an upgrade which gives an even lighter, stronger and stiffer paddle. The quick adjustable length fits any sized paddles and board. It is collapsible into 3 pieces where the longest part will be less than 130cm which fits perfectly with the Rum Runner SUP.

Weight: 950g

Material:

3-piece fiberglass shaft, carbon reinforced nylon blades

Available lengths:

Adjustable telescopic 170 to 215 cm

Point 65 Spray decks & transport decks

Point 65 offers 3 styles of decks ranging from the simple tough Nylon deck "Storm" to an even tougher deck "Ocean" with straps and reinforcement.

Point 65 Kayak Trolley

Instead of carrying the kayak, wheel it! Durable high-quality aluminum construction. The cart can be folded, the pneumatic wheels easily taken off, and easily stowed. Fits through a 7.5" / 19cm deck hatch, weight 4lbs / 1.8 kg, loading capacity app. 90lbs / 40 kg
